Software Development student with a strong interest in entering the job market to apply my knowledge. I am a hardworking, communicative, and dedicated person. I am looking for an opportunity to gain more professional experience.

Experience

Lizbur

Attendance control system with biometric data for Lizbur Deshidratadora. - 3 months

Sep 2023 - Dec 2023

Rosario, Sinaloa

Development of an attendance control system using biometric data, implementing a database, an administrator panel, and an attractive and intuitive design for the end user.

Andrade's Software Factory

Software Engineer - 4 months

Apr 2023 - Aug 2023

Mazatlán, Sinaloa

I interned for 4 months working with Microsoft technologies, developing low code/no code applications with Power Apps and Power Virtual Agents, and developing databases with SQL Server and SQL Express 2019.

Centro Rosarense de las Bellas Artes Nostalgia 1952 A.C

Attendance control system for the school Centro Rosarense de las Bellas Artes Nostalgia 1952 A.C. - 3 months

Jan 2023 - Apr 2023

Rosario, Sinaloa

An attendance control system was implemented for the school employees since the entire process was previously done via a signed sheet. If this sheet was lost, it could affect or benefit the workers' remunerations. The project included the design of the database, functionality, and the implementation of both design and functionality frameworks.

Univesidad Tecnologica de Escuinapa

Development of an E-commerce site as a final semester project. - 3 months

Sep 2022 - Dec 2022

Escuinapa, Sinaloa

Development of an E-commerce site for an online bazaar, implementing online payments such as PayPal, database design, and an intuitive user interface for the end user.
